

MEETING IN TURKEY

During the current school year, the classes involved in the project are the same but they have become now 2CG, 3CG and 3BG, while there has been a change in the teaching staff, because the teacher Mrs Francesca Carboni has taken over from the teacher Mrs Di Stefano, who retired.

The third meeting took place in Turkey in the school of Gelibolu, from November the 2nd to the 7th and our delegation was made up by 6 students and 3 teachers. All the delegates, both students and teachers, had been hosted by Turkish families, who gave them an effusive welcome and the opportunity to appreciate the exceptional Turkish hospitality. The relationship among the delegations had always been warm and hearted, also thanks to what the “masters of the house” offered, always surrounding the guests with a joyful and convivial atmosphere, often cheered up by songs and dances.

At this meeting, as well, every school showed its own contributions concerning the specific part of the project which deals with the rural house in the present. Our school presented the works in power point carried out by our students, and all the partners evaluated them in positive ways.

The meeting allowed the participants to visit the Trojan ruins and it ended with the excursion to Istanbul to know better and appreciate the Turkish culture and one of the biggest metropolis and its famous architectural style. During our visit, the mayor of Istanbul showed the pleasure of meeting and welcoming us with a special meal for all the delegations at the 14th floor of the city hall.
